EDUCATION

Institute of Information Technology - University of Dhaka

Bachelor of Science in Software Engineering

CGPA: 3.93 (till date)

Expected Date of Graduation: Sep 2026

Relevant Coursework: Structured Programming, Data Structure and Algorithm, Object Oriented Concepts, Web Technology, DBMS, Software Requirements Specification and Analysis, Design Patterns, Software Testing and Quality Assurance, Artificial Intelligence, Distributed Systems, Software Design and Analysis, Software Security, Software Metrics

Adamjee Cantonment College | *Higher Secondary Certificate Examination*

GPA: 5.00 (General Scholarship)

Year: 2021

Adamjee Cantonment Public School | *Secondary School Certificate Examination*

GPA: 5.00 (General Scholarship)

Year: 2019

PROJECTS

🔗 [Smart Library](#) / Express — MongoDB — Nginx — Docker / github.com/FarhanTausif/smart-library **April 2025 - August 2025**

Built a **scalable Smart Library backend** using Express microservices (User, Book, Loan), MongoDB, and Nginx for reverse proxy and load balancing. Used Docker and **Docker Swarm** for containerization, **orchestration**, and **auto-scaling** of services.

🔗 [Shosti](#) (Team Project) / MongoDB — Express — Next.js — Tailwind CSS / github.com/FarhanTausif/shosti **Nov. 2024 – March 2025**

Engineered a **full-stack mental health platform** with JWT authentication, AI chatbot (Google Gemini API), real-time video calls (ZegoCloud SDK), media storage (Cloudinary), and email notifications (MailSend API). Integrated **SSLCommerz Sandbox API** for secure **payment handling**. Built RESTful APIs and responsive React/Tailwind CSS interfaces with a focus on accessibility.

🔗 [MedhaBee](#) (Team Project) / Next.js — FastAPI — MongoDB — Tailwind CSS / github.com/sejutiii/MedhaBee

May 2025

Built an **inclusive science education platform** for Bangladesh, integrating Google Gemini API for bilingual (Bangla/English) AI chatbot (text/voice input, simplified/advanced responses). Enabled content translation, video categorization, daily facts, and screen reader optimization. Developed FastAPI backend with MongoDB Atlas and Azure Speech API for real-time TTS/STT.

🔗 [E-Commerce Platform](#) (Team Project) / Spring Boot — Docker — Qdrant / github.com/Hasin-ai/E-commerce **June 2025 - Ongoing**

Developed a **scalable eCommerce app** with secure accounts, NLP-based search, product comparisons, reviews, and inventory management, adhering to clean architecture principles.

🔗 [WumpusWorld](#) (Team Project) / Pygame / github.com/FarhanTausif/WumpusWorld

July 2025

Simulated a **logical agent** navigating the Wumpus World using **propositional logic** and **inference-based decision-making**.

Demonstrated intelligent behavior in uncertain and hazardous environments through reasoning and perception.

🔗 [Stat-Inferno](#) / C++ / github.com/FarhanTausif/SPL-1

August 2023 – December 2023

Designed and developed a **statistical tool** for descriptive and inferential analysis. Implemented Z-Test, T-Test, Paired T-Test, F-Test, Confidence Intervals, Analysis of Variance (ANOVA), and linear regression to support data-driven decision-making.

ACHIEVEMENTS AND AWARDS

- **Honorable Mention, Artificial Intelligence Category, Blockchain Olympiad Bangladesh 2024** | Project: *RenewAble Synergy – Optimizing Production, Distribution, and Storage in Renewable Energy Systems Using AI for a Sustainable Future*
- **Participant, International Data Science Olympiad (IDSOL) 2024, Amsterdam, Netherlands**
- **Champion, IIT Futsal Tournament 2025** | Captained the team to victory, demonstrating teamwork, strategy, and leadership.
- **General Scholarship, Government of Bangladesh** | Awarded for outstanding academic performance in PSC, JSC, SSC, and HSC

DEVELOPMENT SKILL SET

Programming Languages: C, C++, Java, Python, Shell (Bash) | **Frontend Development:** HTML, CSS, Javascript, React, Next.js, Tailwind CSS, Bootstrap | **Backend Development:** Express, FastAPI | **Databases:** MongoDB, Oracle SQL, Qdrant | **Tools:** Git, Linux, Figma, Nginx, Docker, Docker Swarm, Swagger, Selenium IDE, Postman, Wireshark, SeedLabs

EXPERIENCE

BARTA (Bangla AI Research, Technologies and Applications) Research Group | *Research Mentee*

May 2025 - Present

Joined the BARTA research group with an interest in Literature Review, Coding, and Data Analysis; awaiting task assignment.

IIT Software Engineering Community | *Organizing Secretary (June 2025 - Present)* | *Executive Member (July 2024 – May 2025)*

Organized major tech events like ITVerse 2023 (contributing to documentation, streaming, and promotion) and Flutter Frenzy 2023.

IIT Football Team | *Player*

June 2023 – Present

Participated in university inter-department football tournament and organized IIT Futsal Tournaments in 2023 and 2025.

Adamjee Cantonment College Quiz Club | *House Club Captain*

December 2019 – April 2021

Organized and hosted internal quiz competitions, and represented the club in national competitions, securing multiple top positions.
